Education

Ramdeobaba University, Nagpur, India

2023 - 2027

- CSE|CGPA: 9.35

(Expected)

RK High School, India

2022 - 2023

- JEE Mains: 98.62 percentile|JEE Advance: 19K Rank|MHTCET: 97.62 Percentile
- HSC (Class XII), Aggregate: 88.5 %

Skills

Programming Languages : Java, C, Python, JavaScript, TypeScript, EJS

Frameworks and Libraries : React js, Next Js, Express Js, Node Js, Three Js, Puppeteer

Developer Tools : GitHub, Docker, Vercel, VS Code, Postman, Jira, AWS, Stack Overflow

Design and UI Tools : Figma, Tailwind CSS, Bootstrap, Shadcn UI, Spline

ORM and Databases : Mongoose, Prisma, NeonDB, MongoDB, PostgreSQL, MySQL

Work Experience

Navodita Infotech

March 2025 - April 2025

Frontend Developer Intern

- Designed and developed a dynamic **eCommerce product catalog** for a real-world client project using **React.js** and **Tailwind CSS**, implementing key features like responsive layout, real-time product filtering, and dynamic rendering of product data based on user interactions.
- Created a fully functional **News Feed Reader application** that allows users to subscribe to multiple news sources, fetch live articles using **APIs**, and read categorized news in a clean, mobile-friendly interface.

HackSagon ABV IIITM Gwalior

Feb 2025 - June 2025

Project Lead

- **36-hour hackathon** where me and my team developed a web application called **NeuroLearn** using **MERN Stack** along with proper state management, Responsive web design and **Open AI key**.
- Neurolearn is an AI-powered study companion that **summarizes** lectures, generates quizzes, and crafts personalized study plans from PDFs or notes. Leveraged **NLP** techniques to extract key concepts and automate question generation. Enhanced learning efficiency and retention by reducing the manual effort of organizing study material.

Projects

SHADYX UI - From Copy To Vibe

- Created a customizable and developer-friendly UI component library that offers both static and animated reusable components for rapid web development. It simplifies UI building with pre-designed, responsive elements tailored for modern web apps.
- Attracted over **2,000** user visits within the first **5 days** of launch, showcasing strong initial traction and high user engagement with the platform.
- **Tech Stack:** Next Js, Tailwind Css, Framer Motion, Aceternity UI and Figma.

SCRIVO - Your Excuse to Look Busy

- A full-featured **project management** platform designed to streamline task tracking, sprint planning, and team collaboration through intuitive **dashboards**, customizable **workflows**, and real-time updates.
- Implemented core features such as secure user **authentication** and **authorization**, **dynamic dashboard** for task overview, customizable workflow management, and functionalities for **organization creation**, joining, and inviting team members. The platform supports role-based access control, real-time **notifications**, and responsive design.
- **Tech Stack:** Next Js, Tailwind Css, Framer Motion, Aceternity UI, Shadcn UI, Figma, Clerk, NeonDB and Vercel.

Accomplishments

LeetCode - [My Profile](#)

- Solved **550+ problems** on LeetCode with over **1000 submissions** within a year, maintaining a consistent **150+ day streak**.
- Covered a comprehensive range of **DSA** topics, from arrays and strings to graphs and dynamic programming, with a strong focus on mastering easy and medium level challenges.

CodeChef - [My Profile](#)

- Consistently participate in CodeChef contests with a highest rating of **1344**, earning the **1 star coder** rank by solving diverse algorithmic problems and improving competitive skills.
- Dedicated to maximizing problem-solving on CodeChef, tackling various challenges regularly to strengthen **algorithms** and **data structures** knowledge.
